

## 2009 ~ CUT BANK HIGH SCHOOL TEACHER RECOGNITION

**Aaron Moss ~ Computer Science**  
**Mark Flaherty ~ Mathematics**

When I moved to Cut Bank in the spring of 2005 I knew no one. I became good friends with one of the teachers and that was Mr. Flaherty. We had many of the same interests including chess, problem solving games, and even tennis. He was the first one to truly make me feel welcome at Cut Bank High School. He has inspired me to be not only the student that I can be but also to be a great person.

**Autumn Nielsen ~ Hospitality Management**  
**Dawn Blair ~ Band**

A great teacher is found when they can inspire a student to excel. Mrs. Blair has been my inspiration since fifth grade. She has inspired me to reach beyond myself and my typical accomplishments. I strive to make her proud and I push myself to my limits. Daily she takes the time to greet students and genuinely cares for each of us. She is an unforgettable teacher and her kindness has impacted my life forever.

**Brielle Newman ~ Elementary Education**  
**Lisa Faber ~ Mathematics**

Mrs. Faber has always made herself available to help fix all the problems I manage to make on what seems to be the simplest problem. Mrs. Faber is one of those teachers that will always brighten your day when you see her. She is always waiting there with a smile as a greeting when you walk in the door. Her concern for her students makes a huge impact on their response to her in and out of the classroom. Mrs. Faber has helped me grow academically as well as strengthening the person that I am.

**Britteny Evans ~ Nursing**  
**Kathleen Woldtvedt ~ Biology**

She made learning very fun and interesting. She was also very helpful in making sure that I understood everything. No matter what we had to do she would always try and make it interesting.

**Calcie DeZort ~~ Photography & Graphic Arts**  
**Mr. Mike Faber ~~ Social Studies**

The first day I walked into his class, I was thinking that it would be just another boring history class. I thought history was already set in stone and that there was nothing else I could learn about it, but Mr. Faber made each and every historical event we talked about come to life. He made me see that we can learn from past events.

**Clayton Vermulm ~~ English Literature**  
**Landon Harrison ~~ English**

I have always had a passion for literature. Whenever I didn't understand some underlying message or grammatical subject Mr. Harrison was always there to help me. Mr. Harrison has gift to explain things to me unlike his tutelage I learned more about English, grammar and literature. Mr. harrison has the innate ability to create a fun, supportive and meaningful learning environment.

**Devin Bundy ~~ Elementary Education**  
**Mrs. Arline Rice ~~ Kindergarten**

From learning the alphabet to playing house, there was never a dull day in her classroom. She has a caring smile and childlike spunk that made her so fun to have as a teacher. Mrs. Rice is the reason I am pursuing a degree in Elementary Education

**Gavin Voeller ~~ Business/Marketing**  
**Jerry Grinder ~~ Business**

Mr. grinder has impacted my life most of all because he is the adviser for Business professionals of America, a student organization of which I am the current President. He has also been very influential to me throughout my high school career because I have taken several of his classes and one of the, Business Law, is the class that helped influence me to pursue my current college and career path.

**Jessica Johnson ~~ Cosmetology**  
**Mrs. Lisa Sheble ~~ 2nd Grade**

Mrs. Sheble teaches one of the most important grades during a child's education. In second grade children are trying to break free from being a child to being more grown up and Mrs. Sheble understands this and works with her students. She is extremely caring and teaches her students in a fun but educational way.

**Jessica Waldner ~~ Elementary Education**  
**Mike Faber ~~ Social Studies**

i learned so much from him because he made learning a new experience every day. It was not the same old routine. If you had a problem, he would always make sure you were caught up with the class before he moved on to the next topic. Mr. Faber always pushed me past my limit in everything we did because he knew it would benefit me.

**Joseph Hallenberg ~~ Agricultural Studies**  
**Mr. Dell Meuchel ~~ Social Studies**

In his class he would let you speak your mind on whatever the subject was. He is respected by everyone, and gives everyone the respect they deserve. Mr. Meuchel has influenced me to maybe someday become a teacher, and use some of the methods he taught me the two years that I was in his class.

**Joshua Paulson ~~ Environmental Design**  
**Bill Hannah ~~ Art**

He has shown me what needs to be done to become successful in art and in life. He has brought me to value my use of time and to have patience. Mr. Hannah has made the greatest impact on my education and life.

**Kelsey Laird ~~ Psychology**  
**Dawn Blair ~~ Band**

When Mrs. Blair is in the classroom, she does more than just teach you about music, she teaches you how to be a better person outside the classroom. She is a leader in the classroom and also to the teaching staff. She relates to students of all ages or abilities and treats us all with respect while truly caring about our well being. Mrs. Blair is definately a teacher I will never forget.

**Kristin Olson ~~ Special Education**  
**Kari Bronec ~~ Middle School Science**

Mrs. Bronec impacted my education more than any teacher I have had. She always tuaght us new things and made her class interesting. She truly cared if her students excelled in her class. She was always willing to help with any problem that came our way. When times get bad, a person always remebers who was there to catch them. She was the most compassionate teacher I have ever met.

**Kristopher Seglem ~~ Architecture**  
**Mark Flaherty ~~ Mathematics**

I had not been especially good at math until Mr. Flaherty came, but it seemed that we had a connection that made math easier for me. He had a tendency to mix-up numbers, get lost in problems and find the wrong answer many times, but he always found his way to the rightanswer smiling. I now realize that when he would get lost and confused he tuaght me that you don't always get the right answer right away. That philosophy will stay with me for the rest of my life - put a smile on my face, slow down and rethink the problem.

**Lanaia Lewis ~~ Engineering**  
**Lisa Faber ~~ Mathematics**

Everyday she is ready to teach something more challenging than the day before. Mrs. Faber does not just teach; she demonstrates. She has made my passion for math grow stronger. There are times when I am learning something, and she will tell me that she knows I will like it because I am a "math nerd" just like her.

**Marla Rice ~~ Education**  
**Mike Faber ~~ Social Studies**

An influential teacher is someone students can count on to be supportive, motivating, and trustworthy. Mr. Faber is always there to give his encouragement and dedication in the classroom and in sporting events. He has taught me how determination and hard work can help you accomplish anything in life.

**Melanie D'Isidoro ~~ Botany**  
**Mark Flaherty ~~ Math**

Mr. Flaherty not only taught me math, he taught me from the tennis court to believe in myself. I had attended a tennis camp and had come to the conclusion tennis couldn't be that hard. From the first practice it was clear I had no ability in the field of tennis. Mr. Flaherty taught me to persevere and not to give up because even a sometimes angry and uncoordinated girl can succeed if she is willing to work hard.

**Michael Fugle ~~ Electrical Technology**  
**Quinn Kelly ~~ Industrial Arts**

Mr. Kelly has been one of the coolest teachers I have had and it has been a privilege to be his student. Every year I have had him, I learned something new, things that I know I will use in my everyday life. With his encouragement I know I have the confidence to further my education in the electrical technology field.

**Orin Johnson ~~ Education**  
**Hugo Anderson ~~ Physical Education**

From the moment he arrived in Cut Bank, I knew that he would have a strong influence and be one of my favorite teachers. He has pushed me unlike any teacher I have had and helped make me stronger than ever. The discipline, work ethic, and dedication that I have learned in his class can easily be applied to other areas of my life making me a better person.

**Shelby Logan ~~ Electrical Technology**  
**Bill Sprague ~~ Auto Shop**

The thing I will remember most about him is you don't know what you have until it is gone. He was a great guy and got along with almost anyone. He showed me that if you work hard enough you can overcome almost any obstacle. He is one of the teachers that I will never forget. Because of him, I now have a different outlook on life. Life is short so live it to the fullest. Remember to wear your safety glasses!

**Sierra Sammons ~~ Sociology**  
**Kathleen Woldtvedt ~~ Biology**

There wasn't a boring day in her class. She is the most thoughtful teacher I've had. If it wasn't for her, I probably would have fainted a few times during dissecting labs. We often got off subject in her class, and whatever we talked about she provided great advice and still managed to get us back on track.

**Spencer Lewis ~~ Engineering**  
**Kathleen Woldtved ~~ Biology**

Mrs. Woldtved's knowledge and enthusiasm for biology made every day in her classroom exciting and fun. Her passion for science shines through while teaching and she passes it on to her students. She taught me through hard work and dedication I can achieve anything. I am truly thankful to have had a teacher like Mrs. Woldtved.
